National Bulletin: 300-6-36

March 15, 2006

Subject: LTP – Conservation Security Program (CSP) Self-Assessment Workbook Addendum

Purpose. To issue CSP guidance to the State and Field level employees on the use of the Addendum to the CSP Self-Assessment Workbook.

Expiration Date. September 30, 2006

Background. The Farm Bill and CSP regulations explicitly prohibit duplicative payments under CSP and other conservation programs on the same land.

As a measure to prevent the Agency from making duplicative payments, the **Addendum to the CSP Self-Assessment Workbook** will be completed by FY 2006 CSP sign-up applicants during the application process. The **Addendum** is available on the "my.NRCS" CSP program page.

Due to the release date of this bulletin, Conservationists will not be expected to obtain a completed **Addendum** for applications already submitted. However, an **Addendum** will be completed for all FY 2006 CSP sign-up applicants whose applications are approved for contract development.

Contact. If you have any questions, please contact the Branch Chief, Stewardship Programs Branch, at (202) 720-3524.
